

# Draft Proposal B

Scenarios should be evaluated for their long-term and regional impacts. Phased implementation and high school changes will be recommended to the Board by district staff.

## Scenario Summary

**Middle schools:** Harrison Park joins Kellogg in hosting Spanish DLI. Lane becomes the regional hub for Chinese DLI. Both Harrison Park and Lane expand attendance areas to further boost enrollment.

**Elementary schools:** Bridger and Woodstock become regional hubs for Spanish and Chinese DLI, respectively. Lent becomes a whole school Spanish DLI neighborhood program. Clark becomes the neighborhood K-5 school for Harrison Park students. Attendance areas are adjusted to accommodate the dispersal of Bridger and Woodstock neighborhood programs and boost enrollment for schools no longer co-located with DLI.

**K-8 schools:** Creative Science is moved to Arleta and enrolled through the neighborhood.

## Grade Reconfiguration & Enrollment Policy Changes
