

Board Policy

4.10.040-P

Inter-District Transfers

The Board of Education for Portland Public Schools is committed to the success of every student in each of our schools. Our primary mission is to educate students who live within our district boundary. When feasible, Portland Public Schools will also consider enrolling nonresident students and allowing residents students to enroll in other district.

The district has a responsibility to provide families and students with timely and accurate information so that they can make informed inter-district transfer decisions, and to work cooperatively with other school districts to support families in the decision-making process.

The district will be in compliance with all state laws governing inter-district transfers when deciding whether to enroll non-resident students or release resident students to other districts. Criteria for determining inter-district transfer priorities will be aligned, as well, with Portland Public schools policies and administrative directives governing transfers between district schools.

The Board of Education directs the superintendent to create administrative directives procedures and notifications to support this policy.
